About APPLYMAGE® _ p.21

Where and how are the products made?

The products in the APPLYVRAC[®] Eterniti[®] range are **entirely designed and manufactured in France**, in the Lyon region, using the **best conventional machining** techniques and a **short supply chain** and local economy approach.

What does it include?

The APPLYVRAC[®] Eterniti[®] range is made up of eco-designed dispensers (gravity dispensers, scoop dispensers, display cases) and display stands (muesli bar, corner stands). It is constantly evolving to adapt to the **changing needs of hospitality and public sector professionals** (shared spaces, coworking/coliving spaces, dining facilities, etc.).

Which requirements do the products meet?

Food-grade compliance

The materials used to make the products in the APPLYVRAC[®] Eterniti[®] range are naturally **recyclable**. They are approved for contact with food and free from both BPA and phthalates. These physiologically safe **materials** are all **certified according to the standards in force and the latest food regulations** (analyses and tests carried out by several independent French and foreign laboratories).

Materials approved and certified for **contact with food** pursuant to the **standards and regulations in force**

The knobs of our dispensers are treated against **germs, bacteria, viruses and coronaviruses** including Covid-19

Hygiene

The **excellent airtightness** of these dispensers, as well as the antimicrobial treatment used for coating the service knobs, significantly **reduce health risks**. Many parts have been designed to be easily removable and disassembled to enable **quick and thorough cleaning**.

Sustainability

The materials selected are of **top quality** and extremely impact-resistant, thus ensuring **durability** and a **long lifespan** of the equipment. The **complete repairability** of APPLYVRAC[®] Eterniti[®] dispensers further **extends their lifespan**.

5-year warranty

Main characteristics

of the dispensers

the APPLYVRAC®
eterniti®
range

design combining simplicity, aesthetics and functionality

- clean lines for total transparency
- **excellent product visibility to showcase items** in a neat and original way
- Instant **visual control** helps shopkeepers to:
 - monitor stocks in real time
 - step up the prevention of health risks

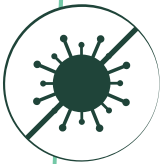

installation efficiency and freedom

- **less space taken up** in aisles
- **choice of different corner stands:** specific display stands or cabinets ready to install with integrated dispensers
- **installation possible on all kinds of furniture**

control and pleasure of self-service

- **intuitive to use:**
 - flap that opens gradually
 - reduced waste thanks to the gravity dispensers' safety lock
 - lid that slides downwards on scoop dispensers
- **perfect stability:**
 - safety during handling
- **easy to fill**

enhanced hygiene

- **easy cleaning** and maintenance:
 - many parts are removable or extractable (including the gravity dispenser spout for regular and rapid cleaning)
 - dispensers are lightweight and sturdy, so they can be cleaned manually with vigour
 - can be placed in professional dishwashers
- **excellent airtightness:**
 - gravity dispensers have a lock and dual-flap system, which helps to reduce health risks
 - scoop dispensers have airtight lids
- **contact area restricted to release knobs** during service:
 - knobs are treated against germs, bacteria, viruses and coronaviruses (including Covid-19)
 - scoop dispensers can be opened without touching the inside of the lid

exceptional durability

- the materials used are of **top quality** and **extremely impact-resistant**
 - they are guaranteed to be sturdy and last an extremely long time
- **extended life span** of the products:
 - total, simple and fast repairability
 - all components can be replaced by the user
 - assembly is fully mechanical with stainless steel crosspieces (no gluing or welding) / no plastic injection-moulded parts
 - reduction in waste as well as logistical and transport constraints (reduced carbon footprint)
- **5-year contractual warranty**

possibility of customisation and tailor-made items

- **in-house design office**
- **adaptation of an existing project** or **a project from A to Z**
 - according to specifications defined with the client

MUESLI BAR

also suitable for a
SELECTION OF TOPPINGS

This display stand has been specially designed to offer the **WIDEST SELECTION OF SEEDS**, nuts, dried fruits, chocolate chips and other ingredients for a **COMPLETE MUESLI**, all within a compact space.

MODULAR and requiring no special installation, it will always find its place on a breakfast buffet or in a shared space.

What products are they suitable for?

Ideal for **seeds, nuts, small dried fruits** (such as raisins, cranberries, etc.), chocolate chips, confectionery, etc.

spoon service
